

PROMOTION IS LEADING TOPIC

Question Of The Chief Clerk's Promotion To Secretary Of State, Is Said To Be Raised.

LUSH IS TO GO TO THE WEST SOON

Says Himself The Place Is A Snap--Who May Be Selected For Place--Many Applicants For Place.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Dec. 18.—It is seriously proposed that the next legislature enact a law abolishing the office of chief clerk in the office of secretary of state. Just now there is an interesting series of moves being made with reference to this office. The incumbent of the past four years, Charles K. Lush, has resigned and will shortly go to Beltrami, Minn., to engage in newspaper work. Secretary of State Houser proposes to fill the vacancy thus caused by promoting Chief Bookkeeper J. H. Healy of Neenah, a nephew of S. A. Cook. Healy would make nothing out of the change, except to trade an exacting position for what is known in the capital as a "soft snap." The salary of chief clerk is \$1,500 a year, the same as that of chief bookkeeper. Secretary Houser proposes to move John T. Lee of Madison, a brother of ex-Senator George P. Miller, up from first assistant to chief bookkeeper, meaning a raise of from \$1,500 to \$1,800 a year for Mr. Lee. Then Don Sherman of Hillsboro, who is now second assistant bookkeeper at \$1,200 a year could be promoted to Mr. Lee's place. William H. Comerford, statistical clerk, a personal friend and fellow townsman of Speaker L. L. Le Roy of Superior, would move up into Mr. Sherman's place and get an advance thereby of from \$1,200 to \$1,500 a year. The vacancy remaining would be filled, according to program, by the appointment of Miss Lena Ebern as statistical clerk. She is a sister of Assemblyman E. L. Ebern of Whitehall, and with her father has been working in the census department. Her appointment would be accomplished under the provisions of the civil service law labeled promotions and transfers. James A. Frear, of Hudson, however, who will in two weeks be inaugurated into Mr. Houser's office, does not want this program to go through. He has repeatedly written to the civil service commission in regard to the place, and now desires that it be placed in the exempt class because it should be occupied by one who can maintain close confidential relations with the head of the department. If this exemption be granted, of which there is said to be little or no probability, Mr. Frear could appoint whom he chose and would not have to select his chief clerk from the civil service list of eligibles. During the last campaign, on account of alleged political activity by Mr. Lush, it was predicted that the next legislature would throw over a bill to abolish this "easy" situation, and it was declared that the only duty performed by the chief clerk is to place his name on vouchers that have been properly lined out on blank forms. Mr. Lush himself does not insist that the duties of the office are particularly arduous, and it is said that he believes it should be abolished and the work thereof be done by the assistant secretary of state. It is believed in the capital that the point in the whole matter is that Mr. Houser desires to keep the matter of filling the office out of the hands of Mr. Frear and at the same time to favor his present assistant by handing out a bunch of promotions. Mr. Frear is jumping fast to prevent Mr. Houser from having this satisfaction. The request for exemption also suggests that Mr. Frear would like the place for some friend, who assisted him in the campaign. The situation is interesting, but perhaps not important, for the ability of the present force of the department of state is unquestioned, nor is it suggested that Mr. Frear would fill the place with any but one thoroughly capable of doing the work with entire satisfaction.

IN WAR AGAINST CATTLE PLAGUE

LIVESTOCK BOARD REPORTS THINGS ACCOMPLISHED.

10,000 TESTS IN TWO YEARS

Late State Veterinarian Roberts and Grant U. Fisher Conspicuous in the Work.

Grant U. Fisher of this city, member of the State Livestock and Sanitary board, has received from State Veterinarian Russell a copy of the board's biennial report to the Governor which sets forth in an interesting and convincing manner the effective crusade against the tuberculosis plague in which the late Dr. E. D. Roberts, as state veterinarian, bore such an active and valuable part. The report is for the years 1905-6 and it is shown that during this period of Dr. Roberts' activities, under the direction of the board, 10,078 cattle were submitted to the tuberculin test, of which number 2,000 reacted. Of this latter number 1,203 were shipped by the sanitary board to the abattoirs where 507 were condemned by federal inspectors and 726 passed. Cattle shipped by owners numbered 111 and reacting ones held in quarantine, 52. In accordance with the law passed by the last legislature which became operative in April, 1905, cattle that are found to react to the tuberculin test are shipped to the large packing centers and there examined by federal inspectors. It, upon such examination, the disease is found to be localized in some of the internal organs of the body and is not unsuitable for human food, the carcasses are passed in accordance with the U. S. Dept. of Agriculture regulations. During the 19 months this law has been in operation there has been covered back into the state treasury from the sale of carcasses so passed the sum of \$12,141.13. Over one third of the moneys paid for the appraisal of affected animals has thus been returned to the treasury. Prior to this time the moneys paid by the state for appraisal represented an entire loss. During the past two years there was a large increase in the number of cattle tested, the record for 1903-4 being 2,245 tested and 504 reactions. For this the awakened and increased interest of the stock-raisers themselves was in a measure responsible. Many tests are now voluntarily applied by farmers to their own herds, and where satisfactorily performed the results are accepted by the board.

Several centers, or foci, where the disease has been widely diffused have been located and in three instances, at least, the mixed skim-milk of creameries, used for feeding the calves, has been found to be the source. This distribution can be prevented by the pasteurization of the skim-milk and the board proposes to recommend to the legislature this winter the passage of a law requiring the heating of this residue to such temperatures as will effectually destroy the tubercle bacilli.

It should be borne in mind that the percentage of diseased cattle in Wisconsin is not larger than that in other states, but on the contrary is much lower. The drastic measures taken by this state to stamp out the plague have been successful, and other states will eventually be compelled to adopt them.

Sixty horses have been tested with mallein for glanders and there have been 39 reactions. In all 67 have been killed, a large number showing such pronounced symptoms as to require no test. By virtue of the law requiring physical inspection of all horses prior to their importation into Wisconsin, the main source of trouble has been eradicated, as a large percentage of the animals afflicted came from the western ranches.

There have been but a few outbreaks of anthrax, blackleg, rabies, and the other diseases of livestock, and none have reached epidemic proportions.

The moneys paid for cattle afflicted with tuberculosis for the fiscal year ending June 30, 1905, aggregated \$3,455.93; for the year ending June 30, 1906, \$25,022.01. The total sums paid for horses during the two years were \$850.19 and \$1,079.93. The salaries and expenses of the state veterinarian during the two years were \$4,622.28 and \$4,770.33.

DEFENDS GREAT FORTUNES

CHANCELLOR DAY WRITES ON "MILLIONAIREPHOBIA."

Deplores Destructive Regulation by Government and Predicts Terrific Crash in Business World.

New York, Dec. 18.—Chancellor Day of Syracuse university, whose championship of Mr. Rockefeller and the Standard Oil company was a widely quoted contribution to current political discussions, continues to denounce warmly the movement for legislative control of aggregations of wealth.

This movement he terms "millionairephobia," in the forthcoming issue of Leslie's Weekly, and says:

"For some time we have been in the grip of this mighty spasm over corporate wealth and swollen fortunes. These current phrases are from high sources. All of our national ills are being stated in this formula: Down with the rich. Punish the swollen fortunes. Make the rich poor and all the poor will be rich. Destroy the corporations, hamper them, obstruct them. Sue them in the courts. Assail them in the press. Tie the strings of the Lilliputians to them in congress and bind them, and the individual can have a chance."

"Make the returns of great businesses sufficiently small and uncertain by petty legislative restrictions and control and we shall not be troubled by the genius of a Rockefeller, a Hill, a Morgan, a Carnegie, an Armour, or a Swift. The little men will be big enough for the little things remaining to be done. It is a crime for several men to have developed the power of giving employment to 50,000 or 150,000 men."

"Fortunes are not the only things that have swollen," he declares, "but salaries and wages as well, while hours of labor have shrunk, which is another way of swelling wages."

He says that the men who would reduce these fortunes had nothing to do with swelling them, and could not manage them if they had them; that those who are chattering about predatory wealth would not refuse to take over corporation stock even in Rockefeller propositions. Destructive regulation should be preceded by government ownership, then if the government owned the property it is proposed to supervise, "we can take the consequences of our meddling."

"I predict," he says in conclusion, "that we are passing through an epoch that will stand in future times to our everlasting disgrace and shame. We are phenomenally blessed by Providence. We are steadied by the calm confidence and signal ability of the greatest men ever known in the commercial world. But if this mania continues it is not far on to a crash that will carry down all confidence, confuse all property rights, block the wheels of all progress and wreck not only the millionaire's fortune but the laborer's cottage. The demand of the hour is the control of the controller. Swollen fortunes are a thousandfold less dangerous to our land and people than swollen demagoguery."

TRAIN IS WRECKED AND BURNS.

Accident on New York Central—Engineer Fatally Injured.

Rochester, N. Y., Dec. 18.—The New York Central train known as the "Buffalo local," a fast train running between New York and Buffalo, was wrecked about a mile east of Palmyra Monday afternoon. The engineer was fatally injured and the entire train, with the exception of one Pullman, was burned to the trucks.

A local freight was taking water at the pumping station when suddenly another freight came in sight on the same track. It ran into the rear of the first freight, knocking the cabooses and a coal car over on the passenger track. The crew started to flag the "Buffalo local," which was due, but almost immediately the local came in sight, with two engines, making up lost time. The heavy coal car threw both engines off the track and down an embankment. The baggage car was thrown partly off the rails, but none of the other cars left the tracks. Everyone in the passenger cars was badly shaken up, but none was seriously injured. Engineer Harris of Rochester, who was in the first engine, and who by sticking to his post probably saved many lives, was dug out from under the wreckage terribly injured.

The Rev. Samuel McComb told a story of one of the choicest Irish bulls on record. An Englishman, traveling in Ireland, stopped to inquire of an Irishman who lived in a certain house they were just passing. The Irishman replied: "That is Mr. O'Hare's house, and if he had lived until to-morrow he would be one week dead."—Boston Record.

We have a good list of these farms. **FOR SALE.** 12,000 Acres of Timber Lands in Western Maryland. This land is accessible to two railroads, one running through a portion of the tract; also to the Chesapeake and Ohio Canal. This property is near the markets of Washington, Baltimore, Philadelphia, Harrisburg, and Pittsburg with intermediate points. It has two sulphur springs, one of which is hot. Splendid iron ore out-crops lying in the immediate vicinity of the Anthracite Range. It is safe to say coal will be found on the property. It carries a Sandstone Quarry of five different colors, and an inexhaustible supply of building stone for construction purposes.

Timber: Oak, poplar, chestnut, hickory, ash, cucumber and pine. About 3/4 of this is white and chestnut oak. The remaining one-fourth being divided up among the other varieties. 8,000 acres of this tract is in the original growth, balance second growth. It is estimated to cut at least 40,000,000 feet of merchantable lumber, and 2,000 mine props, which should not be delivered at railroads or canal not less than \$150,000 as props are at present selling at \$9.00 per hundred. 40,000,000 feet of stimping, located as this is, near two lines of railroad and so accessible to large markets, should be worth \$3 per M., or \$120,000.

Land. The land is of excellent quality for general agricultural purposes, being especially adapted to the raising of apples, pears, peaches and all the smaller fruits and berries. Climate is excellent, water good and in great abundance from both springs and streams. Everything considered, there is no more desirable tract of land for colonization purposes in the east.

Arrangements could be made with one of the Steamship Companies, either in Baltimore or New York, to colonize these lands at from \$5 to \$10 per acre after timber has been removed. 5,000 acres (2d growth) can be cut at once under contract into mine props and delivered at the railroads where they bring cash. Some quarries can be operated under contract, iron and coal mined on a royalty; so no further capital will be required until buyer is ready to build mill, to handle the 8,000 acres of virgin timber.

This valuable timber is offered at \$12.00 per acre, subject to previous sale, with title guaranteed. Terms of payment are 1/3 cash, balance in annual installments to suit purchaser; same bearing interest from date of sale.

BIG SUIT TO SAVE RIVER

CASE OF KANSAS VS. COLORADO UP IN SUPREME COURT.

Defendant State Accused of Monopolizing Waters of the Arkansas—Notable Array of Lawyers.

Washington, Dec. 18.—Argument was begun Monday in the supreme court of the United States in the frequently deferred case of the state of Kansas against the state of Colorado, involving an effort on the part of the complaining state to prevent the monopolizing by Colorado of all the waters of the Arkansas river for irrigation purposes in the latter state. In its bill of complaint Kansas alleges a material reduction of the volume of the surface stream after it reaches that state, and also of the underflow upon which much dependence has been placed in the past.

The case is an original action and is regarded by some as the most important suit of the kind ever instituted in this court, and that the court itself does not minimize its importance was indicated when 12 hours' time, three times as much as is usually allowed, was set apart for its presentation by the numerous attorneys who appear in it. Of the parties to the controversy Kansas, Colorado and the United States was each given three and a half hours and the individual defendants one and a half hours. The case was not called until after three o'clock and the hearing will continue until very near the close of Thursday's session of the court.

The first argument for Kansas was presented by Attorney S. S. Ashbaugh of Wichita, and he had not concluded when the court adjourned for the day. Mr. Ashbaugh will be followed by L. C. Loomis of Topeka, who will also appear in support of Kansas' contentions. The Colorado side of the controversy will be presented by Clyde Dawson of Canon City and Attorney General Miller of that state, while Platt Rogers, D. C. Beaman and J. F. Valle will appear as the representative of the individual ditch interests of Colorado. Solicitor General Hoyta, Assistant Attorney General F. L. Campbell and Assistant Attorney A. C. Campbell will present the government's view of the questions involved in the case. The closing argument in behalf of Kansas will be made by Attorney General Colman of that state and F. Dumont Smith of Kinsley, Kan.

In his opening argument Mr. Ashbaugh dwelt especially upon the injury caused to the immediate valley of the Arkansas river by the diminution of the flow of that stream, both above and under ground. He contended that the state had suffered incalculable loss by the diversion of its waters in Colorado.

The courtroom was given over entirely to this case, and the array of lawyers was sufficient to almost fill the space usually allotted to attorneys in the courtroom. A number of the members of the congressional delegations from both states also were present at the hearing.

Associate Justice Moody, having participated in the preparation of the government's presentation of the case, left his seat when the argument was begun, thus indicating his intention not to take part in the adjudication of the controversy.

Big Fire in Valdez, Alaska. Valdez, Alaska, Dec. 18.—Fire in the Bank of Valdez, believed to have been started by a burglar, totally destroyed the bank, the Stella hotel and the Valdez bank and Mercantile company's building, entailing a loss of \$53,000. An examination of the bank vault shows a large hole had been blown in the back of the vault.

Do Not Endanger Life When a Janesville Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint? Backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them? Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Janesville testimony: Walter Grove, carpenter, of 107 Lincoln St., Janesville, Wis., says: "I have been so crippled up with backache and rheumatism pain and muscular weakness that I could not get my about at all and was confined to my bed for weeks at a time. I got rid of the backache finally by using Doan's Kidney Pills which I got at the People's Drug Co. The treatment got me out of my bed and on my feet again and I do not have any more backache nor any form of kidney trouble. I still suffer from a form of rheumatism in the legs and joints but I know positively that Doan's Kidney Pills have cured my kidneys for there is not the least sign of any irregularity in the action of the kidneys, and none of the rheumatism that I now suffer can be attributed to the kidneys."

THE SALARY QUESTION

The house of representatives voted the other day, on the salary question. After agreeing to raise the salaries of the cabinet, vice president and speaker of the house, from \$8,000 to \$12,000, a motion to increase their own salaries from \$5,000 to \$7,500 and the salaries of the senate, in the same proportion, was lost by a vote of 105 to 131.

The members were unanimous in the sentiment that they needed the raise, but they were afraid to tackle it. The chances are that the senate will take the matter up and relieve the house of responsibility.

Interviews with a number of congressmen revealed the fact that the most economical could barely live on their salaries in Washington, while many of them were obliged to draw on private resources.

These conditions are not right, and they are unnecessary. The American people can afford to pay their representatives a living salary, and they would so express themselves if opportunity presented.

The city of Washington is an expensive place to live, and the demands on a congressman are unusual. If he commands any influence he must be in line with the procession. If he lacks influence, he might as well stay at home.

One member, who is a widower, and who has two daughters to support, says that \$300 a month is the best he can do for board, and this is but one item of expense.

Janesville had an assemblyman, some years ago, who lodged on a back street, and dined at a lunch counter. He saved a little money, but he was a cipher.

Legislation, whether at the state or national capital, is done in the caucus and committee room, and the man who devotes his time to saving a dollar, is seldom present at either. His vote to ratify or kill, is prompted by advice from some man who is posted.

Everything in this country, including wages, has advanced, during the past few years, except salaries. Congressmen are on the same pay that they were 25 years ago. There is every reason why they should receive more money; they will not be criticised for voting an advance.

There are other salaries which are in the same condition. In almost every line of business, salaried positions command fixed wages, and many of the positions have not advanced for years. There is usually a surplus of applicants, and on that account the salary list is kept down.

The result is that the expert industrial wage-earner today receives double the money of the average salaried man.

There is no law, except the law of supply and demand, which can change these conditions; however unjust they may seem, but young men can afford to think twice before deciding between industrial and commercial life, for a calling.

One of the liners which sailed from New York, last week, carried over \$2,000,000 worth of Christmas presents to the old world. Half the amount was registered packages to the number of more than 80,000. The New York banks, with funds already depleted, were called upon to meet this additional strain, and gold was in active demand.

It is rumored that Harriman is buying Chicago, Milwaukee & St. Paul stock freely, with a view to gaining control, and thus securing another line to the Pacific. The stock has advanced in price, until it now stands near the head of the list.

The automobile manufacturers, recently assembled in convention at Washington, represented a capital of 60 million dollars. This is a new industry, yet one of the most important in the industrial field. The large block of capital employed is significant, and yet it is but a drop in the bucket when compared to the great volume of capital now in use, in all parts of the country. Prosperity has produced a world of business, but

there is a shortage of money just now to handle it, a condition so novel that it causes a good deal of uneasiness.

The San Francisco Call says that all kinds of business is good—wholesale, retail and cocktail. Judging from reports, the cocktail business is monopolizing many of the industries. Organized labor is in control, and a short workday gives the men plenty of time to cultivate an appetite for drink. When the government gets through with the school question in San Francisco, there are other questions that can be tackled to good advantage.

An electric cradle-rocker, and an electric spanner are on exhibition at the Coliseum in Chicago. While the agricultural school at Madison is exhibiting a patent cow-milker. With these new inventions life on the farm should be one continual round of pleasure. The wife can spank and rock the baby by turns, until seven o'clock in the morning, and John can attach the hose and milk the cows, from the kitchen. The world certainly "do move."

The old question of state rights is again in the limelight, with the California school question as an object lesson. Senator Raynor of Maryland made a bitter attack on the President yesterday, and had a dozen other democratic senators are ready to back him up. Senator Spooner will reply, and the discussion promises to be one of the most important in the history of the country. The south still clings to the state rights policy.

The President's special message to congress, on the Panama canal question, indicates that he made a thorough investigation, during his recent trip, going into the most minute detail of the work. The canal proposition is the most stupendous piece of work ever attempted by the government. It was too much for France, and will tax the skill and endurance of the United States, before completed.

The genial pension agent, E. D. Coe, who has been hanging on by the gills for the past year, is likely to retire soon after the first of January, when the junior senator gets busy. Spooner no longer controls the eastern district, and federal appointees in Milwaukee will be among the first to walk the plank.

With a temperature of from 6 to 24 below zero, in North Dakota, and no coal, the suffering is intense. The interstate commerce commission has taken up the fuel question, and the Northern Pacific Railway company has promised to rush coal to the distressed people at once. North Dakota is all right for a summer resort, but a little frigid for a winter residence.

BOARDERS COMPLAIN AGAINST LANDLORD

Edward McManus and Frank Mead Avert That William Lathers Fired Shot Gun at Them Last Night.

District Attorney John L. Fisher and City Marshal Appleby accompanied Edward McManus and Frank Mead to the former Burr Robbins homestead on Eastern avenue this afternoon, the purpose of their trip being to ascertain whether or not the state has a strong criminal action against William Lathers who dwells there and is the landlord of a boarding house.

The two young men were brought here from Rochelle several months ago by Peter Hohenadel, Jr., and after some weeks in the cannery factory secured employment at the beet sugar plant. They appear to be peaceable, honest, law-abiding youths and from their account, at least, the extraordinary attack made on them by Landlord Lathers shortly after six o'clock last evening was without any ample provocation.

McManus, the main object of Lathers' wrath, had paid his board in advance that very morning, so there was no trouble on that score. But Lathers is said to have flown into a passion when Mead asked him for a broom to sweep out his room which had been allowed to become very untidy by long neglect. When some sharp retort was made to Lathers's rejoinder that "he would have the room swept when he got good and ready," or words to that effect, the landlord is alleged to have ordered both men out of the house. The conversation took place in the kitchen and to speed the parting guests Lathers is further alleged to have secured a shot gun, to have jabbed the muzzle under McManus' chin—he shows the scar where the iron bruised his face and to have pressed the trigger. The cartridge which is alleged to have been loaded, did not explode. McManus ran out of the kitchen and Lathers is alleged to have been in the act of making the same sort of an assault on Mead when the latter wrested the gun away from him and struck him a hard blow over the eyes with his fist. The man was then hustled to one of the other boarders but Lathers is alleged to have secured possession of it again and to have fired, presumably at the ceiling, while they were upstairs packing their effects. As they came down to leave the house and passed the doorway Lathers is alleged to have shot at them again and to have fired still another volley out into the night and in their direction as they got clear of his domicile. In the melee Lathers is also alleged to have swung a lighted lantern, striking McManus on the right side of the face. Finally, after the two men had found refuge at the house next door, Lathers called up the police station by telephone and complained that his boarders were abusing him.

All of the boarders were sleeping when the visitors arrived on the scene this afternoon and inquiries, which might tend to confirm the McManus and Mead version of the mix-up could consequently not be secured. Another effort to interview the spectators will be made tonight and if what they say substantiates the fore-

going a warrant for Lathers' arrest will probably be issued tomorrow. It is said that he was in his ups and it is also said that the two young men were perfectly sober.

ACTIONS FOR LARCENY WERE BOTH DISMISSED

On Recommendation of City Marshal Appleby, in Cases of George Walker and Glen Schneider.

On recommendation of City Marshal Appleby the criminal actions for larceny against the colored man, George Walker, and his white companion, Glen Schneider, who were accused of stealing four roasts of beef from the Grand hotel, were dismissed in municipal court late yesterday afternoon. The fact there was a probability that the State would have some difficulty in producing the necessary evidence and the several days already served in jail by the prisoners were the considerations which prompted this action.

W. R. C. MEMBERS HONOR BIRTHDAYS

Picnic Dinner Served to Members and Husbands at G. A. R. Hall This Noon.

On Thursday local members of the Women's Relief Corps are accustomed to entertain W. H. Sargent Post, No. 21, but during December, the holiday season, many are too busy to attend the parties, so the natal days of seven were jointly celebrated at the G. A. R. hall today. Thirty or forty ladies and a number of their husbands gathered there late in the morning and this noon enjoyed a picnic dinner. After the feast, Seward Vice President Mrs. Florence Spencer made a few remarks, referring particularly to the reason for the gathering, and Secretary J. A. Treasurer Miss Ella Wais presented a souvenir spoon to the honored guests who had not received them in past years. The birthdays that were honored were those of the Messdames Eleanor Caldwell, Lucy Miller, Etta O'Neill, Carrie Glenn, Mary Carlo, Irene Van Franklin and Elizabeth Rabyor. Mrs. Victoria Potter, the retiring president, has been ill, but was able to be present this afternoon and as a token of regard for her faithful service during the past two years, a spoon was presented to her. A birthday spoon was also presented to Mrs. Emma Backus, whose anniversary is in January.

It is an actual fact that for some days we have been selling the regular ten cent size "Palm House" Cigars at five cents (5c) each, or 125 for a box of twenty-five cigars.
For the Christmas trade we have had the cigars wrapped in special neat Christmas packages. We believe there is nothing being offered at a like price more suitable for any gentleman who smokes.
The price \$1.25 for a Christmas package containing twenty-five regular ten cent (10c) Palm House Cigars.

The Legal Reserve

is the minimum percentage of its deposits which a National Bank must hold in cash.

That great Standard Oil institution, the National City Bank of New York City, last Saturday had eight one hundredths of one per cent in excess of the reserve required by law. Our reserve, and for some time has been considerably over twice as large as the legal requirement. That is, we have in cash and on deposit in banks approved by the comptroller of the currency as reserve agents, an amount over twice as large as the law would require a safe reserve.

We pay three per cent interest on certificates of deposit.

Thursday, Nov. 15, 1906.
Board met pursuant to adjournment at 10:30 o'clock a. m.

Called to order by S. S. Jones, chairman.

Roll call.
All members present.

Journal of yesterday read and approved.

Sup. Johnson submitted report of Committee No. 1 and moved its adoption.

Janesville, Wis., Nov. 15, 1906.
To the Honorable County Board of Rock County:

Your committee, to whom was referred the M. R. Williams, state tax, beg leave to report that they have examined into the same and find that this property was not properly assessed owing to the failure of the assessor in Beloit to follow out the written instructions of County Clerk, Mr. H. W. Lee. However, we are now informed by County Treasurer O. F. Smith, that the property has been assessed for the taxes due for 1904, 1905, and 1906, and if this assessment is properly made, it will undoubtedly correct all past errors and save all right, which the County Board might have, and allow the County to enforce the collection of this tax.

Regarding the petition of N. K. Heggard for a refund of taxes, which he paid, on a two thousand five hundred dollar mortgage, and which taxes were paid in the year 1903, and which matter was referred to your committee at the June meeting, 1906, will say that we have examined into the same and find that the taxes paid by N. K. Heggard upon this mortgage, in our opinion, should be returned to Mr. Heggard. We find that the amount of tax that he paid on this mortgage was twenty-four and 67-100 dollars.

Therefore your committee would report to the Board of Supervisors of Rock county, that the sum of \$24.67 dollars should be voted by the Board to be paid to N. K. Heggard, to repay him for taxes which were illegally paid by him and charged back to the Town of Spring Valley.

W. H. H. JOHNSON,
W. H. HOWARD,
THOMAS CLARK,
Committee No. 1.

Ayes 39, No 0.
Sup. Johnson from Committee No. 1, asked for further time to report on other illegal taxes.

Carried.
Sup. E. D. Cannon moved that whereas the special committee on county property has recommended that the salary of Supt. Killam be fixed at \$1,200, beginning January 1, therefore,

Resolved, that the salary of said Supt. Killam is hereby fixed at \$1,200, beginning January 1, 1907.

Motion adopted by the following vote: Ayes 38, Nays 1.

Sup. Smiley, from special committee as regards salary of Judge Sale, submitted the following:

Your committee, to whom was referred the question of the advisability of providing for the compensation of

the County Judge by salary, and the abolition of all fees for which the county is or otherwise would be liable, respectively report that it, in company with the County Judge, has had the matter under consideration and that in the opinion of your committee—in which opinion the County Judge fully concurs—a fixed salary and the abolition of all fees for which the county is, or otherwise would be liable, is preferable to the present mixed system of salary and fees combined.

Your committee further reports that it is advised that the only method by which the change can be made at the present time is through legislative enactment, as this Board is not empowered to make such change to take effect during the present term for which the County Judge is elected.

Your committee therefore respectfully submits the following resolutions and recommends their adoption.

Resolved, by the County Board of Supervisors of Rock County, that the members of the legislature from this county be and hereby are requested to procure such legislation at the coming session of the legislature as will place the salary of the County Judge of this county at three thousand dollars per year, and abolish all fees for which the county is, or otherwise would be liable to him.

Resolved, that the clerk furnish to each of the members of the legislature from this county a copy of the foregoing report and resolution with the action of the Board thereon.

Diet for the Stout.

The writer has succeeded in reducing excessive weight in most satisfactory manner by prescribing a diet consisting almost exclusively of grapes and apples, allowing only a small bit or thoroughly dry bread or zwieback in connection with the fruit. In some cases the fruit may be allowed as often as three or four times a day, if necessary, to relieve an uncomfortable sensation of emptiness.—The Vegetarian.

Sayings of Sidney Smith.

On examining some new flowers in the garden, a beautiful girl, who was of the party exclaimed, "Oh, Mr. Sydney! this pea will never come to perfection." "Permit me, then," said he gently taking her hand and walking toward the plant, "to lead perfection to the pea."—The Sunday Magazine.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Just as, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden little nerve weakness that is at fault.

This obscure nerve, the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, disappointing, suffering heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds it strengthens; it offers real, genuine heart help.

If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Bad Symptoms.

The woman who has periodical head-
 aches, backache, imaginary dark
 spots or spots floating or dancing before
 her eyes, has a gnawing distress or heavy
 full feeling in stomach, faint spells, drag-
 ging-down feeling in lower abdominal or
 pelvic region, easily startled or excited,
 irregular or painful periods, with or with-
 out pelvic catarrh, is suffering from
 weakness and derangements that should
 have early attention. Not all of above
 symptoms likely to be present in any
 case at one time.

Neglected or badly treated and such
 cases often run into maladies which de-
 mand the surgeon's knife if they do not
 respond to medicine.

No medicine extant has such a long
 and numerous record of cures in such
 cases as Dr. Pierce's Favorite Prescription.
 No medicine has such a strong
 professional endorsement. No medicine
 has such a long record of cures in such
 cases as Dr. Pierce's Favorite Prescription.
 The very best ingredients
 known to medical science for the cure of
 woman's peculiar ailments enter into its
 composition. No alcohol, harmful, or
 habit-forming drug is to be found in the
 list of its ingredients printed on each
 bottle-wrapper and attested under oath.
 In any condition of the female system,
 Dr. Pierce's Favorite Prescription can do
 only good—never harm. Its whole effect
 is to strengthen, invigorate and regulate
 the whole female system and especially
 the pelvic organs. When these are de-
 ranged in function or affected by disease,
 the stomach and other organs of digestion
 become sympathetically deranged, the
 nerves are weakened, and a long list of
 bad, unpleasant symptoms follow. Too
 much must not be expected of this "Fa-
 vorite Prescription." It will not perform
 miracles; will not cure tumors—no med-
 icine will. It will often prevent them, if
 taken in time, and thus the operating
 table and the surgeon's knife may be
 avoided.

Women suffering from diseases of long
 standing, are invited to consult Doctor
 Pierce by letter, free. All correspondence

HARD LINES AHEAD

FOR THE BALD HEADS

The Wonderful Tonics Will Cost More
 Under the New
 Law.

Just because a man out in Dakota
 is bald and has money it is going to
 cost everybody else in the United
 States more money after Jan. 1, 1907,
 to keep from getting bald than it ever
 did before.

This fact is of interest to Janesville-
 tians who have sought at different
 times in the past to prevail upon re-
 calcitrant thatches of hair to return
 by submitting to tonic rubs in the bar-
 ber shops of the city. For tonic rubs
 will probably advance.

This results from the classification
 of hair tonic among the articles to
 be regulated by the new pure food
 law. It is alleged that many of the
 tonics in use now contain wood alcoh-
 ol. After Jan. 1 they will have the
 real, undiluted alcohol or else they
 won't exist. So says the pure food
 law.

It all started, according to a Janes-
 ville barber, in the wilds of Dakota,
 where they have long had prejudices
 about what they eat. The discussion
 on food precipitated by "The Jungle"
 extended to hair food through the in-
 terest in that subject by the afore-
 said Dakota bald, rich gentleman, who hap-
 pened to be on the state food commis-
 sion.

"Pure food is what we need," he
 said. "And this tonic that I use to
 bring back my hair is hair food, isn't
 it? Certainly. And I'll bet it's just
 as impure as the rest of the food on
 the market. Let us investigate."

They investigated. They found
 wood alcohol, as aforementioned.
 They got busy with congress, which
 was then framing up the pure food
 bill. Hair tonic was purified by law.
 The hair tonic men raised the price,
 and the barbers all over the country
 have followed suit.

Whether baldness will increase or
 decrease is a problem with the toni-
 cal artists of the city. If the hair
 tonics are purified to an extent which
 shall make them really effective and
 the public stands the raise, every one
 will benefit. For what is an occasion-
 al extra nickel compared to a real
 head of hair growing where no hair
 grew before?

ENCOURAGE SPORTS

OF A FISTIC NATURE

University of Wisconsin Will Have
 Set of Prize-Fighting As-
 pirants Soon.

[SPECIAL TO THE GAZETTE.]
 Madison, Wis., Dec. 18.—The Uni-
 versity of Wisconsin is leading en-
 couragement to the boxing game by
 devoting the time of E. D. Angell,
 assistant professor of physical cul-
 ture, to the management of classes for
 the instruction of the students in
 the many art of fistic encounter.
 Professor Angell has gone about it in
 a systematic manner and much en-
 thusiasm is developing in the enter-
 prise. Boxing classes have been held
 here before, usually under the title
 of former Coach Andrew M. O'Dea,
 but never before have so many students
 entered the classes as this winter.
 So large is the interest that it is pro-
 posed to have a championship series
 of bouts in which the various schools
 and classes of the university will
 present aspirants for the university
 championship. This plan has not yet
 been approved by the faculty, for it
 is feared that unpleasant comment
 will be provoked by it, and possibly
 backwoods legislators, coming to
 Madison next month for the biennial
 session of law manufacture, may find
 in the encouragement of fighting an
 excuse for reducing or defeating the
 fat appropriations which the univer-
 sity authorities hope to get through.
 Already some adverse criticism has been heard, usually
 taking the form of remarks that the
 Wisconsin faculty should "denatur-
 ize" football and then turn around
 and lend encouragement to pugilism.

Deafness, Cannot Be Cured

by local applications, as they cannot reach
 the inner portion of the ear. There is
 only one way to cure deafness, and that
 is by constitutional remedies. Deafness
 is caused by an inflamed condition of
 the mucous lining of the Eustachian Tube.
 When this tube is inflamed you have a
 rumbling sound or imperfect hearing, and
 when it is entirely closed, deafness is the
 result, and the inflammation can be
 taken out and this tube restored to its
 normal condition, hearing will be de-
 veloped, hearing will be restored, and
 you will be cured of deafness.

We will give one Hundred Dollars for
 any case of Deafness (not by surgery)
 that cannot be cured by Hall's Catarrh
 Cure. Send for circulars free.

Jose Santos Zelaya.

President Jose Santos Zelaya, of the republic of Nicaragua (one of the strongest and richest states in Central America) was born in the capital city of this state, Managua, in 1858, and is now 48 years of age. He was well-educated in Paris, and remained in the French capital for eight years. While a well-educated man, Zelaya owes his high position and great power to his fighting abilities. He has been a regular soldier of fortune, and won his way with revolver and saber. He owns enormous coffee plantations. He gained his ascendancy in Nicaragua by winning a big battle in 1897. He had to fight again in the summer of 1899, beating the conservatives and their army with much slaughter. He made a treaty on August 27, 1898, combining the armed forces of Nicaragua, Salvador and Honduras. This combination threatened to absorb all the rest of Central America, but only lasted a few months. Zelaya was re-elected president of Nicaragua by a large majority in 1901.

To Whom It May Concern.—Mr. G. R. Curtis says that if the sneak thief who stole his family washing last evening will call at his store he will give him something that will erase the markings from the articles. Mr. Thief please call as above and oblige.
